

NEWS

WE ARE ONLINE!

The web portal of
BIENNALE AUSTRIA – Verein zur Förderung zeitgenössischer Künstler
is launched!

Again a listing of data in the network?
No!

This web portal is a door outward and to each other. According to a big search engine ca. 4,330.000 online galleries are represented in the www. On many online galleries artists can present their artwork, but that's all.

An unmanageable quantity,
each one a dust particle,
for the inquiring eye of the universe.

Not only that we link artists, curators, artists organisations, culture and art institutions and associations, exhibition managers, galleries, museums, culture managers, culture media, journalists and all those who are interested in art and culture, but we also offer a wide range of services which are continuously developing.

Take an active part as a member, get informed by newsletters, become a partner or support projects as a sponsor of the members of the association.

Welcome!
Elisabeth Rass
