### **ADRIELLE**

Adrielle attended the Art Center College of Design and California Institute of the Arts and studied advertising illustration and fine art. Produced graphics for the entertainment business in Hollywood with various television and movie studios. She moved to New York City and launched a career as a freelance illustrator. Her work was published in numerous magazines, billboards and public bus shelters across America, newspapers and publicity media, and featured on several magazine covers in America and Europe.

Her work is spontaneous, and unplanned; the images evolve from abstract beginnings, and are sometimes mythical in content. The final result is an eclectic composition of these impressions and influences.
